Pero, ¿Qué es un Learning Menu?

El Learning Menu es un componente asincrónico que te permite elegir y construir tu propia experiencia de aprendizaje.

Appetizer: Esta actividad te permite profundizar en los temas trabajados en la clase sincrónica.

Mains: Estas actividades te brindan input sobre las estrategias de lectura y su aplicación.

Dessert: Esta actividad te brinda vocabulario y actividades de salida.

¿Cómo me van a evaluar?

Para asegurar un seguimiento continuo del progreso de los estudiantes durante la formación, se implementará un proceso de **evaluación formativa**. Este sistema implica supervisar constantemente su desarrollo académico y proporcionar retroalimentación. Con el objetivo de lograr una evaluación efectiva, se utilizarán diversas estrategias, incluyendo: **retroalimentación individual y grupal, formulación de preguntas en sesiones plenarias, revisión de tareas, evaluación entre compañeros, autoevaluación y el uso de plataformas de aprendizaje en línea**. Estas herramientas fomentan la responsabilidad de los estudiantes en su proceso de aprendizaje del idioma, promoviendo su autonomía en los estudios. Durante el curso, los estudiantes **deberán tomar tres retos** de vocabulario y lectura en formato asincrónico, con el fin de autoevaluar y retroalimentar los conocimientos adquiridos. La asistencia a clase será fundamental para aprobar el módulo.

Retos de Lectura

Programmers made by StorySet Illustration by Freepik Storyset

El curso tiene **3 retos de lectura** y se deben presentar de manera asincrónica: step 2, step 3 y step 4.

Son textos de **programación** vistos en clase.

Los retos se encuentran alojados en la plataforma **MasterTech**.
